#### REVIEW & ACTION ITEMS

##### Seismic Safety Bond Program:

##### 1. District's Request for Priority Funding

Superintendent Hubbard advised that the State Allocation Board (SAB) provided an opportunity for districts who had already received unfunded allocation through the Office of Public School Construction (OPSC) to apply for priority funding. Our District filed its application and will find out in August whether or not we receive priority funding. The District has about \$4.5 million of funding allocation. The District is not expecting to make the first-round priority funding list. This was an informational item, only.

There was no one from the Board or audience requesting to speak.

##### Conduct Public Hearing; Adopt 2010-11 District General Fund Budget and All Budgets Operated by the District; and Adopt Resolution 21-2009-10, "Authorizing Year-End Budget Transfers"

Acting Board President June Monach prefaced the budget PowerPoint presentation by saying that, in terms of the budget climate, the District has been living through highly volatile and uncertain times with respect to both the world and national economies. The impact to the State of California is that it is looking at an estimated \$19 billion budget deficit and in Piedmont, what we have experienced over the past two years is about a 20% decline in revenues from the State, our primary funding source. In terms of local support, twenty-five years ago compared to now, the local community provided about 11% of the total revenues and today, the local community, through parcel tax revenues contributes 33%. Another upcoming issue is that the contracts with the employee groups are due to expire on June 30, 2011 at the end of this fiscal year. About 90% of the District's total expenditures are for salaries and benefits. Given those circumstances, the Board has developed a set of guiding principles to work through the budget development process over the next three years, and also as part of the goal setting process, the Board will be working in close collaboration with administrators to develop a plan and a time frame to balance the budget and sustain our exemplary education program over the next three years.

Superintendent Hubbard clarified that the budget information is based on what we know from the State. The State has not adopted a budget. This is not new news. The statutory deadline for adoption has passed. This is all based on projections as provided to the District by School Services of California, legislative analysts and the Governor's Office. When the budget is actually adopted by the State, within forty-five days, staff will bring back any major

revisions. In September, the unaudited actuals will be brought back. Therefore, the statistics presented this evening should be put in the context of the assumptions as we know them as of about three days ago. As those assumptions change, so will the numbers.

In addition to the assumptions included for each fund, it is important to note the following trends affecting the budget:

- State and federal support for public schools in California have plummeted in the past two years, representing a \$1,100 per student decline in revenue.
- Collective bargaining agreements are settled through June, 2011 in the form of a "Memorandum of Understanding" inserted into existing employee association contracts. After July 1, 2011, all contracts revert to terms as of June, 2009.
- Programs included as essential in Piedmont students' experience have been maintained and are included as part of the 2010/11 budget. "One-time" contributions of \$483,000 from support groups, parent clubs, and the community have been received for "Program Preservation" for 2010/11. The remarkable generosity of the community reflects a commitment to educational excellence, including the compensation and professional development of teachers and staff.
- The widening gap between the increase in the operational cost of programs and a decrease in State funding has been closed in part by the support of the Piedmont community through renewal of the existing Parcel Tax, and the passage of Emergency Parcel Tax Measure E to provide temporary relief (as needed) for up to three years (2009/10 – 2011/12).
- The Parcel Tax support has been an essential component of the District's revenue for the maintenance of programs for students. It has grown from being approximately 11% of the District's total revenue in 1985 to 32.60% in 2010-11 from Measures B and E as approved by voters in June, 2009.
- Revenue from Measures B and E, approved by the Piedmont community by 78.4% and 73.2% margins, respectively, on June 2, 2009, are included as part of the multi-year projections.
- The funds raised by Parent/Support Groups and the Educational Foundation to support programs remain an integral part of the District's budget, representing 6.59% of the total budget. The combined community support for the District budget in 2010-11 totals 39.1% of total budget revenues, or \$4,275 per student.
- District enrollment is stable, but attendance rates dipped slightly in 2009-10. The **2008-09 budget revenue limit was \$5,837** per Average Daily Attendance (ADA) based on a 98% attendance rate for the 2552 students enrolled in 2007-08. The **2010-11 budget revenue limit is \$4,981** per ADA based on 97% attendance.

UNADOPTED

Regular Meeting Minutes of  
June 23, 2010  
Page 3 of 10

- The 35 member Budget Advisory Committee consists of representatives from all stakeholders in the District and meets regularly to discuss the District Budget and provide recommendations to the Board in the budget development process.

The multi-year budget development assumptions for the General Fund for 2011-12 and 2012-13 are as follows:

*General:*

- Beginning fund balance based on 2010-11 projected ending fund balance as authorized by the Board in District Adopted Budget approved on June 23, 2010.
- State and federal budget for K-12 programs based on information included in the 2010 May Revise.
- Implementation of the recommendations from the Budget Advisory Committee to maintain the priorities of offering a breadth of student program opportunities and providing adequate compensation for employees.
- The second of the four-year term for Measure B which begins July, 2010.
- Review the current program footprint (not increase) as part of the commitment to the voters of Measures B.
- The final year of the three-year emergency funding from Measure E approved June, 2009.
- District enrollment pattern is level. Close monitoring of enrollment pattern necessary to make program adjustments as required, with level in enrollment in 2011.
- Maintain positive Ending Fund Balance with a full 3% reserve for 2011/12 and 2012/13.
- \$200K in self-restricted Deferred Maintenance funds for use on maintenance projects
- Concern for the support of on-going programs with one-time funds and/or significant dependence on fund raising for the maintenance of programs
- **\$1.4 million in ongoing reductions as defined in 2010/11.**

Revenues: 2011/12

- Revenue Limit and other State revenue include 2.1% Cost of Living Adjustment (COLA) with a 18.355% deficit (plus additional 3.85% deficit factor tied to base revenue limit).
- Revenue limit based on projected enrollment of 2551 and ADA based on projected P-2 report of 2467.
- Parcel Tax revenue total at same rate as 2010/11 for Measures B & E
- Parent Club organizations total contribution at same level as in 2010-11 for \$1.3+ million
- Educational Foundation on behalf of the Endowment Fund contribution of \$162,159
- Continued transfer from the Adult Education program of \$120,000 to the General Fund

#### Expenditures: 2011/12

- Includes the cost of step and column at 1.5% of total certificated salaries and 1.5% of classified salaries.
- Collective Bargaining issues, including compensation, assume contract provisions remain in force per agreements that expired June, 2009.
- Benefit increases of approximately 15% for all employees.
- Staffing rates subject to change, but reflect 2010/11 levels.
- Savings of \$72,000 for replacement of staff retirements
- **Assumes ongoing \$1.4 million reductions identified at First Interim, December 2010**

#### Revenues: 2012/13

- Revenue Limit and other State revenue include 2.40% Cost of Living Adjustment (COLA) with a -18.355% deficit (plus additional 3.85% deficit factor tied to base revenue limit).
- Revenue limit based on projected enrollment of 2546 and ADA based on projected P-2 report of 2482.
- Parcel Tax revenue total at same rate as 2010/11 for Measure B
- Parent Club organizations total contribution at \$1.3+ million.

#### Analysis and Recommendations

The District's extraordinary program was created and maintained through collaboration – through a vibrant and dynamic partnership of the Piedmont community, teachers and staff, and administration. The same collaboration and partnership that successfully created and maintained the high quality of education in Piedmont will now be required to address the funding crisis and minimize the impact on the quality of education in our schools. We must:

- Begin now to identify options to close the \$1.4 M gap for 2011-12 and the additional \$2.2 M needed for 2012-13.
- Understand that increased dependence on local revenue is not a reasonable solution to our long-term fiscal issues.
- Seek agreement on collective bargaining issues as soon as possible as a critical component of planning for the future.
- Include alternatives with identified priorities for maximum flexibility to respond to fluctuations in State/Federal revenue.
- Work together with all stakeholders on behalf of all students.

The Board asked several questions regarding the budget and some discrepancies on the checklist were noted which will be looked over.

Resident George Childs noted the fact that the projected budgets for 2011-12 and 2012-13 do not reflect increasing the parcel tax levy. He urged the Board to continue looking at ways to avoid increasing the parcel taxes.

Resident Catherine Ogle commented on the following:

- She thanked Administrative Assistant Beverly Feusier for providing hard-copy information on the budget
- She stated that disclosure is improving on the budget background report
- She hoped that the PowerPoint slides were provided online in advance of the Board meeting
- She reviewed language she inserted in the staff's background report that she thought would make more sense and give more information from a citizen's point of view. She thinks providing the dollar information rather than the percentages is easier for the public to understand

Board Member Raushenbush stated that credit for the 2010-11 budget goes to a lot of people: a) those who worked on a Measure E emergency parcel tax; b) employee groups who agreed to take salary cuts; and c) those involved in the Program Preservation Fundraising effort that raised nearly \$500,000. But for all of these things, we would not have a budget that works this year. Even so, the District is still budget deficit spending in a way that is not sustainable long-term but will make this one year work. He is not happy about implementing furlough days, as it has an impact on instructional days for students. It is a short-term solution. The District is going to have a lot of cuts ahead.

Board Member Jones agrees. She is also appreciative to everyone who has made compensation sacrifices or donated money or whatever else to make the 2010-11 budget work. The District is "patching things together" for this year but will have to work hard going forward. Backloading all of the cuts is not a good idea.

Acting Board Member Monach agrees. The overarching direction that is going to be most helpful in terms of solving the budget problem is to identify ongoing ways to sustain our program. She also supports comments that Mr. Childs has made regarding the reduction of dependency on growing levels of the school parcel tax and local private support.
