Piedmont K-5 ELA Review

May 2011
Goals for students:

We strive as teachers to create lifelong readers who read for both information and pleasure. Using a balanced literacy approach in which listening, speaking, reading, and writing are integrated throughout the day, students will develop a repertoire of decoding and comprehension strategies to understand and to appreciate both narrative and expository texts. As teachers we use our expertise, our knowledge of best practices and our experience to guide our students to achieve success in literacy. Our ultimate goal is to cultivate engaged, motivated and competent readers who are inspired to learn about themselves and their world through reading.
Launching the process:

All teachers were involved in the curriculum discussion process, information exchange and analysis of strategies.
