

## Works Cited

You should get all necessary information from the title page and its verso (reverse side). The examples below will show you how to construct a simple bibliographic citation for different types of materials. Each entry should end with a period. Italics may be substituted for underlining. The final document should be double spaced and in alphabetical order by the first word of the entry. This information is also available at the PMS Library Web Site ([www.piedmont.k12.ca.us/pms/Library.html](http://www.piedmont.k12.ca.us/pms/Library.html)) and in your student agenda.
